UC71651	5 Interfaces connectors (male) NEM 652	15.50
UC71750	Pick-up Change over Switch for 76150	38.00
UC73400	Mini decoder, Multi, DC, regulator	53.25
UC73410	Mini decoder, Multi, DC, regulator, connector	53.25
UC73900	Mini Function decoder	38.00
UC74401	*5 Decoder 74400, DCC, DC wires	106.25
UC74421	*5 Decoder 74420, DCC, DC, connector 8pin	106.25
UC75000	AnDi, Mot., AC	38.00
UC76150	PluX 16 Decoder, Multi., load regulation	45.75
UC76200	Decoder, Multi., AC, load regulation, SUSI, LISSY	58.00
UC76320	Decoder, Multi., DC, load regulation, Plug	36.50
UC76330	Decoder, Multi., DC, load regulation, 21p	45.75
UC76400	Decoder, Multi., DC, load regulation, SUSI, LISSY	45.75
UC76420	Decoder, Multi., DC, load regulation, plug, SUSI,	45.75
UC76560	"PluX 22 Decoder, Multi., load regulation	61.00
UC76900	Function decoder	27.25
UC77500	Decoder Gauge I, Multi, DC, regulator	90.25
UC80000	Gantry crane, New 2008"	329.50
UC80020	Lifting Magnet	51.00
UC80100	Water Crane	119.25
UC81210	Digital-Motor	51.00
UC81310	Digital-Servo	51.00
UC81410	Mini-Servo	22.00
UC81420	Standard-Servo	18.50
UC81430	Precision-Servo	51.00
UC83100	REPA Uncoupler H0 2-rail, Gauge 0	34.00
UC83111	5 Uncoupling beam H0 2-rail	13.50
UC83200	REPA Uncoupler H0 3-rail	34.00
UC83211	5 Uncoupling beam H0 3-rail	13.50
UC83300	REPA Uncoupler TT, H0e, H0m	34.00
UC83311	5 Uncoupling beam TT, H0e,H0m	13.50
UC83400	REPA Uncoupler N	34.00
UC83411	5 Uncoupling beam N	13.50
UC83611	5 Uncoupling rods	22.25
UC85200	LOLI vehicle seat TT, H0e, H0m, H0	19.50

Items in BOLD Text New items 2010 due through out the year

Intellibox II
The next Generation
New Features

- Large, high resolution display with back lighting
- Informative data display
- Details are very easy to read
- information in clear text or as Function symbols
- Contextual key allocation
- Speed also displayed in km/h
- Up to 32768 programmable special functions for each locomotive
- Large locomotive data base
- Input of locomotive names
- Decoder programming in plain text
- Routes callable by feedback contacts
- Help function
- Model clock

- USB computer interface
- Low Power Technology

Familiar functionality

- Data format DCC, Motorola
- Up to 128 speed steps
- Up to 9999 decoder addresses
- Virtual locomotive addresses
- Multiple traction (Consist)
- Direct Drive function
- Switching of turnouts, signals and routes
- Integrated Infrared receiver
- Connections for LocoNet, Transformer, track, programming track, Booster, DCC booster and additional Infrared receiver

Wonderful prospects

The Intellibox II technically is Completely new equipment. Only the proven ergonomics remain. It is still compatible with our other devices. Besides the changed design the most remarkable innovation is the large, highly visible display. The display of the various parameters is done in plain text and function symbols. The display is very detailed and also easily readable from the side. The additional keys to the right and left of the display have contextual function for the fast access on menu options and functions. The speed is not only displayed in speed steps or per cent but also in

km/h. Up to 32768 special functions for each locomotive are adjustable. A large locomotive database with the text display of locomotive names can be individually setup. Also new is decoder programming in plain language, the detailed help function, a model clock and the USB computer interface. The new low power technology reduces the heat development to such an extent that a heat sink is no longer necessary.
